GK500 - RED SWITCHES

Accurate and fast keyboard, programmable and with mechanical switches.

AOC G-TOOLS	LIGHT FX SYNC	LIGHT FX	N-KEY ROLLOVER	PROGRAMMABLE KEYS	ON BOARD MEMORY

RGB lighting

Make your keyboard a visual representation of your gaming style by giving it a unique and stylish look using the fully customizable RBG lighting in 16.8M colourways. You can highlight specific sets of keys like WASD, the lights, which include 12 unique effects and brightness settings, can also be manually controlled and customized directly on the keyboard itself.

Mechanical keys

The 104 visually customizable OUTEMU Red Switch keys will transform your gaming experience. Enhanced tactile feedback translates into a more precise input with every button press. A report rate of up to 1ms translates these inputs into on-screen action in the fastest possible way.

Exclusive app

Our exclusive desktop app enables you to have total control over your devices. Every single one of the 104 keys can be programmed individually. On top of that, you'll get even more RGB lighting options and the ability to synchronize all of your AOC devices so that they work and glow in sync with each other.

Comfort for a lifetime

Product life matters. The sturdy aluminium cover, a lifetime of 50 million keystrokes and a braided, gold-plated USB cable make the keyboard a long-lasting companion, while the detachable palm rest brings extra comfort for longer gaming sessions.

General	
Model name	GK500 - RED SWITCHES
Product Line	AOC Gaming
Channel	B2C
